

Internship Opportunity at Emerson – Mechanical / Instrumentation / E&TC

Location: Amar Tech Park, Balewadi, Pune

Duration: 6 Months

Stipend: ₹20,000 per month

Emerson Measurement Systems & Solutions: Who We Are

Emerson Measurement Systems and Solutions CoE Pune Hub, delivers an unparalleled portfolio of integrated measurement systems executing complex projects from concept to commissioning and beyond, for the following applications:

- Liquid Hydrocarbon Custody Transfer and Fiscal Flow Measurement Systems
- Gas Hydrocarbon Custody Transfer and Fiscal Flow Measurement Systems
- Process Gas Analytical Systems
- Liquid Analytical Systems
- Sustainable Measurement Solutions

These Solutions are engineered to meet the challenging demands of the process industry while reaching the safety, productivity, and sustainability goals.

Emerson MSS Values

- Accountability for Actions and Deliverables
- Effective Teamwork through Collaboration
- Drive for Safety, Quality & Continuous Improvement

Job Overview:

Emerson Measurement Systems and Solutions India CoE is inviting applications for a 6-month internship program designed for bright and motivated students from Mechanical, Instrumentation, and Electronics & Telecommunication (E&TC) backgrounds. This internship offers hands-on experience in a global engineering environment, working on impactful projects and learning from industry experts.

Key Responsibilities:

- Participate actively in hands-on training sessions to acquire practical skills in mechanical / instrumentation engineering.
- Collaborate with experienced engineers on real-world projects to gain valuable industry experience.
- Conduct research, analyze data, and contribute to the development of innovative solutions.
- Assist in the design, implementation, and maintenance of engineering systems.
- Collaborate with cross-functional teams to ensure successful project outcomes.
- Stay updated on industry trends, best practices, and emerging technologies.

Requirements and Qualifications:

- Mechanical Engineering Interns – 3 positions
- Instrumentation Engineering Interns – 4 positions
- E&TC Engineering Interns – 3 positions

Desired Skills:

- Strong fundamentals in core engineering subjects.
- Good analytical and problem-solving abilities.
- Effective communication and teamwork skills.

Eligibility Criteria:

- Background in Mechanical, Instrumentation, or E&TC Engineering.
- Available to commit full-time work for 6 months from office.

What You'll Gain:

- Real-world experience in a global engineering company.
- Mentorship from experienced professionals.
- Exposure to cutting-edge technologies and industry practices.
- Internship certificate and potential for future opportunities.
